Parking

- There should be sufficient parking on the property – you should not have park on the street.

- Pull in the driveway and park off to the left in the grass where marked

- If you find that you need to park on the street, please park to the right of the cul-de-sac while looking at Jason's house. Please try to angle in – the cul-de-sac is overly large and a number of cars can fit parking-space style down the side.
